# Installation Guide

---

This extension can be installed by following few simple steps :

1. If you have purchased this module from Adobe Commerce marketplace then you need to navigate to purchase history and there you will see the instruction to install via Composer.
2. If you purchased this module from [WebbyTroops Store](#), you need to navigate to the [My Downloadable Products](#) section under My account.
3. You need to enter a domain name where you want to use this extension and once you have added the domain you will get a licence key and will see a link to download the extension zip. This key is valid for only one main domain and maximum 3 subdomains of the main domain.
4. If you have purchased this extension from Magento marketplace then you need to get the licence key from <https://webbytroops.com/license/key>.
5. Unzip downloaded file.
6. You will get module folder from zip file, move it to `app/code/WebbyTroops`
7. You will also need to install the Core module to use this module. For installing use the command **composer require webbytroopstechnologies/magento2-module-core**
8. Now run **php bin/magento setup:upgrade** command.
9. Flush the magento cache using, **php bin/magento cache:flush**.
