5. Benefits

1. Introduction and Purpose

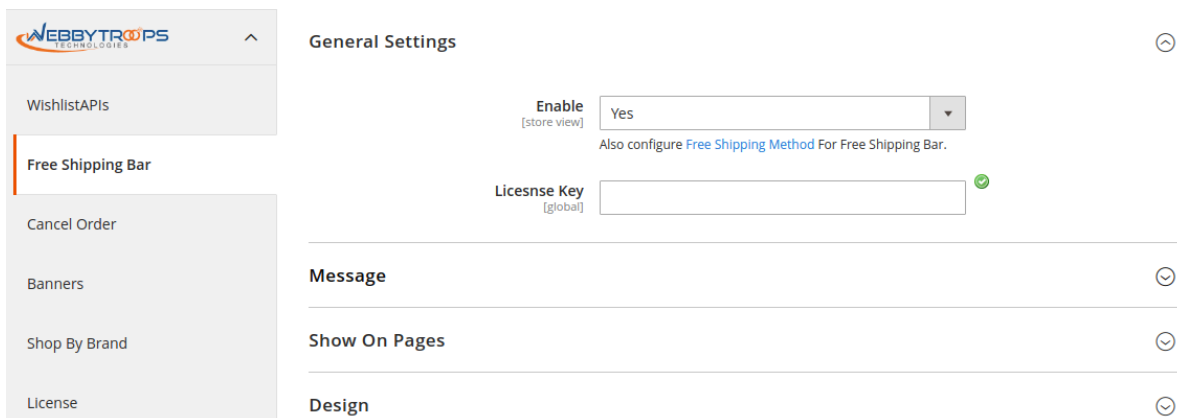

Free Shipping Bar extension for Magento displays an attractive bar to remind customers that they can achieve free shipping by adding products of certain value to their cart. This module will show attractive bars with a message that can be easily customised in magento store configuration. It also shows the progress bar to the customers to highlight how far they are from achieving free shipping on their order. This module provides various options in store configuration to select the style of progress bar to show on frontend. All the things displayed on the bar can be customised easily from Magento configuration which makes it easy for store owners to customise it as per their need. Once the customer's cart has crossed the Free Shipping method Minimum Order Amount threshold then a success message will be shown.

Free Shipping Bar module will help store owners to boost up their sales by encouraging customers to purchase more products to avail free shipping on their order. It can also increase the average order value of customers.

2. How to enable extension?

Once you get the license key (refer to installation guide) you need to navigate to the Free Shipping Bar section under **Stores > Configuration > WebbyTroops**. Once you have added the valid license key you will be able to enable/ disable this extension.

Below is the screenshot where you need to add a license key.

The screenshot displays the configuration interface for the Free Shipping Bar extension. On the left, a sidebar menu lists various settings, with 'Free Shipping Bar' highlighted. The main panel, titled 'General Settings', contains the following elements:

- Enable** [store view]: A dropdown menu currently set to 'Yes'.
- License Key** [global]: An input field for the license key, accompanied by a green checkmark icon.
- Message**: A section for configuring the message displayed on the bar.
- Show On Pages**: A section for selecting which pages the bar should appear on.
- Design**: A section for configuring the bar's appearance.

Note: License key is not required to enable this module on localhost.

Note: Before using this module you need to configure Free Shipping Method in **Sales > Delivery Methods > Free Shipping**

3. Free Shipping Bar extension configuration

3.1. General Settings:

General Configuration of Magento 2 Free Shipping Bar Extension **Go to Stores > Configuration > WebbyTroops -> Free Shipping Bar.**

- 3.1.1. Enable:- Enable/ Disable the module, if disabled free shipping bar feature will not appear in frontend.
- 3.1.2. License Key:- Generate a valid license key for module purchased from Magento Marketplace or WebbyTroops Store.
 - WebbyTroops (Store): If extension is purchased from WebbyTroops official store, navigate to **Customer Login > My Account > My Downloadable Products > Set License Domains > Get Key.**
 - Magento Marketplace: If an extension is purchased from Magento Marketplace, generate the license key from <https://webbytroops.com/license/key>.

My Downloadable Products

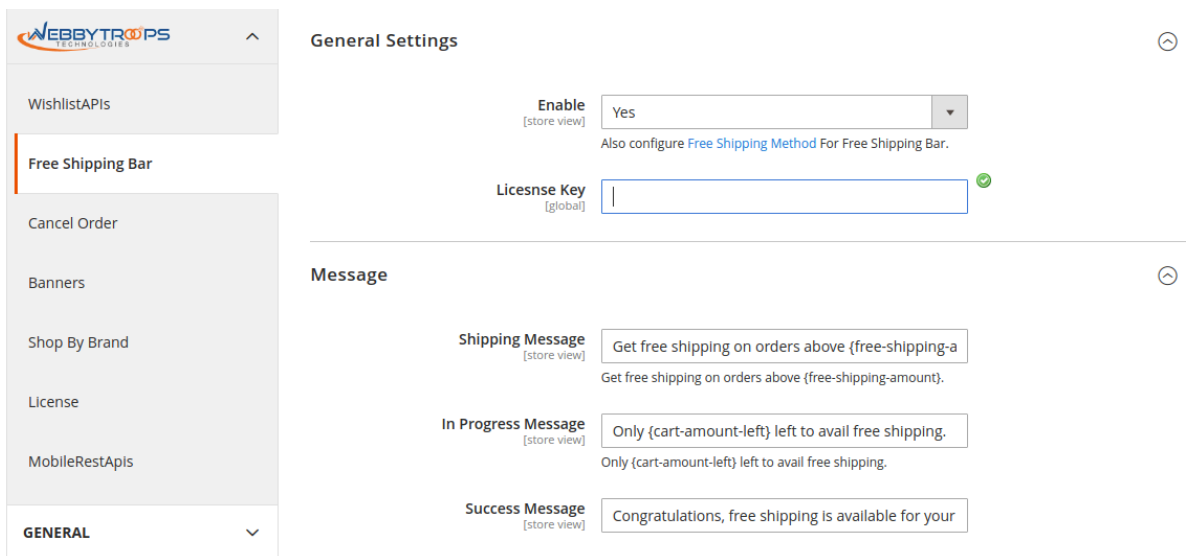

Order #	Date	Title	Status	Remaining Downloads
000000193	9/23/20	Wishlist REST APIs License Domains : <div style="border: 1px solid #ccc; height: 40px; width: 100%;"></div> <p>Please enter comma separated domain name. You can add only one main domain and 3 subdomains of main domain. There is no validation of key on local servers.</p> <p style="text-align: center;">Get Key</p>	Expired	Unlimited

3.2. Messages:

- 3.2.1. **Shipping Message:** Here you can specify any message that will be shown in the bar to achieve free shipping.
- 3.2.2. **In Progress Message:** This message will be shown in the free shipping bar when some items are added into the cart and the customer is moving ahead to achieve free shipping by reaching the threshold amount specified in the Free Shipping delivery method.
- 3.2.3. **Success Message:** This message will be shown when the customer has fulfilled the minimum amount to achieve free shipping.

Note: You can use the following variables in all the three messages above to replace them with the respective amount in the shipping bar message:

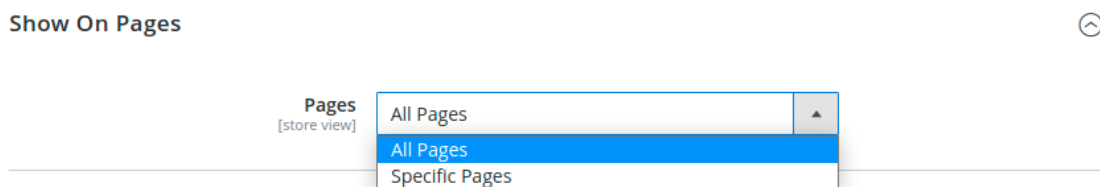

- **{free-shipping-amount}**: This variable replaces the value with the free shipping minimum amount from the Free Shipping Delivery method.
- **{cart-amount-left}**: This variable replaces the value with your remaining cart amount value which needs to achieve your free shipping.

The screenshot shows the 'General Settings' section of the WebbyTroops Admin Panel. The 'Free Shipping Bar' option is selected in the left sidebar. The 'Enable' dropdown is set to 'Yes'. Below it, there is a note: 'Also configure Free Shipping Method For Free Shipping Bar.' The 'License Key' field is empty. The 'Message' section contains three text input fields: 'Shipping Message' with the text 'Get free shipping on orders above {free-shipping-a}' and a preview 'Get free shipping on orders above {free-shipping-amount}.'; 'In Progress Message' with the text 'Only {cart-amount-left} left to avail free shipping.' and a preview 'Only {cart-amount-left} left to avail free shipping.'; and 'Success Message' with the text 'Congratulations, free shipping is available for your'.

3.3. Show On Pages:

In this section, you can select the pages where you want to display the **Free Shipping Bar**.

The screenshot shows the 'Show On Pages' configuration section. A dropdown menu labeled 'Pages [store view]' is open, showing three options: 'All Pages', 'All Pages', and 'Specific Pages'. The first 'All Pages' option is highlighted in blue.

- 3.3.1. All Pages:** By selecting All Pages Free Shipping Bar will display on all the pages.

3.3.2. **Specific Pages:** By Selecting Specific pages you can select the specific page where you want to display Free Shipping Bar.

Show On Pages

Pages
[store view]

Specific Pages

Specific Pages
[store view]

- Home Page
- Listing Page
- Details Page
- Cart Page
- Checkout Page
- CMS Pages
- Catalog Search Page
- Advanced Search
- Customer Login
- Customer Create

Select pages to display free shipping bar.

3.4. **Design:**

In this section, we can design our **Free Shipping Bar** to be shown on frontend.

Design

Progress Bar Style
[store view]

Progress below the bar

Background Color
[store view]

Success Message Background Color

}
```

5. Benefits:

5.1. Free Shipping Bar is an important and simple strategy for owners to trigger customers to purchase more products to get free shipping.

-
- 5.2. This extension can boost sales effectively.
 - 5.3. By offering a free shipping threshold, retailers can increase the average order value and make customers feel like they are getting a good deal.
